[1] Taxable AV Excess Levy = Taxable AV Regular Levy, minus Farm Value (State Levy Part 1 and 2 only) and Senior Value (excluding State Levy Part 1)

[2] Farm/Senior Taxable AV = Farm Value (Excluding State Levy Part 1) plus Senior Value (All)

[3] New Construction is already included in the Taxable Assessed Value and is noted here for informational purposes only.

* Newly Annexed Code District

The timber value is no longer included as part of the taxing district assessed value other than for computing bonds, excess levies, and school district levies.

Chapter 204 Laws of 1984 require that the full TAV (timber assessed value) be added only to assessed value used to calculate voted bonds/special levies/excess levies.

To compute bond levies, the full TAV will be added to the taxable assessed value for the bond levy. To compute school Enrichment levies ½ TAV or the 80% Timber Roll, whichever is greater, will be added to the levy's taxable assessed value.

Levy Description	Levy Type	Full TAV	Half of Full TAV	80% Timber Roll
EMERGENCY MEDICAL SVC FIRE #04	GENERAL	3,268,861	0	0
